

Travalo Classic HD Debuts in US Beauty Essential for 2016
Refined and Luxurious Perfume Atomizer More Convenient than Ever

January 2016 - Classic HD is the newest addition to the Travalo product line for 2016, launching officially in the United States in March of 2016. With a finely crafted bottle in 10 elegant colors, the Classic HD is perfectly weighted and balanced. With a focus on high performance for all Travalo products, the Classic HD embodies the new spray head technology which

produces a finer mist, dispersing perfume over a wider and even area which results in more lavish fragrance usage. Available at www.travalo.com for \$19.99 USD.

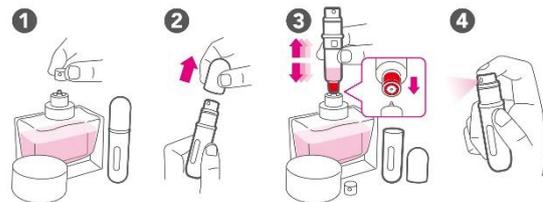

What is more, the uChange inner bottle can now be removed which makes it interchangeable with the Divine, the Milano and all future Travalo models. For the first time in the history of the perfume atomizer consumers can now alternate all of their favorite fragrances without the need for cleaning or waiting for their Travalo model to run empty – “uchange”; simply change the case to suit the mood.

Travalo Classic HD Product Features:

- Available in ten colors: Silver, Gold, Red, Black, Perfect Pink, Plum, Hot Pink, Brown and Blue
- TSA Approved
- 100% innovative, modern and retro
- Removable inner bottle for extreme convenience and functionality with other Travalo models including the Divine and the Milano
- Holds 5ml of fragrance (65 sprays)

Like all Travalo atomizers, the new Classic HD refills directly from a standard perfume bottle through the patented and unrivalled Genie-S pump-fill system ensuring that the fragrance is never contaminated by exposure to the air and decants magically from one sealed bottle into the leak proof atomizer in a few seconds. No other refillable portable spray are as convenient and as easy to use.

Travalo Classic HD is strong, safe and aircraft approved for carry-on baggage, it contains no dangerous glass and unlike fragrance bottles, it can fall onto hard floors or tiles without any risk of breakage. Available at www.travalo.com. Interested media can contact Dawn Ryden at 512.294.6218 or Dawn@3DMKG.com for more information, images, or to schedule an interview with company management.

###
